## Calcul Mental – cahier 1

# Addition et soustraction

version  
**TEST**  
sans solution

1. Les élèves prêts pour un test se réunissent et s'assoient dans un endroit isolé sans pouvoir tricher.

2. Le prof choisit des numéros d'exercices à faire.

3. Avec le livret d'exercices sans les solutions, l'élève répond sur une feuille, dans un temps raisonnable.

4. A la fin, les élèves s'échangent leurs feuilles pour les corriger.

5. Les élèves corrigent en rouge la feuille d'un camarade en s'a aidant de la version avec solutions.

6. Le prof vérifie d'un rapide coup d'œil. Plus de 80 %, le test est réussi. Sinon, il sera repassé après entraînement.

**module I : nombres naturels** : Additions et soustractions de nombres naturels → 100

Pages

niv.1	Additions et soustractions → 10.	$4 + 3 = 7$	4
niv.2	Additions et soustractions → 20 (sans passage par la dizaine).	$8 + 7 = 15$	5
niv.3	Additions et soustractions → 20 (avec passage par la dizaine).	$12 + 6 = 18$	6
niv.4	Additions et soustractions → 40 (avec passage par la dizaine).	$12 + 18 = 30$	7
niv.5	Additions et soustractions → 100 (sans passage par la dizaine).	$35 + 14 = 49$	8
niv.6	Additions et soustractions → 100 (avec passage par la dizaine).	$67 - 18 = 49$	9
niv.7	Compléments à 10 et à 100.	$8 + \dots = 10$	10

**module II : nombres naturels** : Additions et soustractions de nombres naturels > 100

niv.1	Additions et soustractions de dizaines (D +/- D).	$80 - 30 = 50$	11
niv.2	Additions et soustractions sans passage jusqu'à 1000.	$666 + 321 = 987$	12
niv.3	Compléments jusqu'à 1000.	$555 + 445 = 1000$	13
niv.4	Additions et soustractions avec passage jusqu'à 1000.	$276 + 98 = 374$	14
niv.5	Compensation jusqu'à 1000.	$440 + 97 = 437 + 100 = 537$	15
niv.6	Compensation jusqu'à 10 000.	$1542 + 504 = 1546 + 500 = 2046$	16

**module III : nombres naturels** : Ajouter ou soustraire un nombre particulier

niv.1	Ajouter ou soustraire 10 ou 100.	$540 - 100 = 440$	17
niv.2	Ajouter ou soustraire 9 ou 11.	$111 - 9 = 102$	18
niv.3	Ajouter ou soustraire 99 ou 101.	$578 - 99 = 479$	19

## module IV : nombres naturels : techniques de calcul

niv.1	Décomposer pour additionner ou soustraire.	$14 + 27 = 14 + 26 + 1 = 41$	20
niv.2	Compensation.	$82 + 19 = 81 + 20 + 101$	21
niv.3	Association (par associativité ou commutativité).	$21 + 34 + 29$	22
niv.4	Choix de la technique experte entre différente technique.	$346 + 24 + 35 = 405$ : Indique la technique experte	23
niv.5	La technique experte : développe.	$46 + 18 = \dots$ Indique et détaille la technique experte	24

## module V : nombres décimaux :

niv.1	Nombre à une décimale : additions, soustractions et compléments à l'unité.	$7,3 + 1 = 8,3$	25
niv.2	Nombre à deux décimales : additions, soustractions et compléments à l'unité.	$3,45 + 2,1 = 5,55$	26
niv.3	Additions et soustractions ; encadrement.	$37 + 3,377 = 40,377$	27
niv.4	Décomposer pour additionner ou soustraire jusqu'au 0,1.	$7,3 + 1,8 = 7,3 + 1,7 + 0,1 = 9,1$	28
niv.5	Additions et soustractions de 0,01 à 100.	$23,45 + 45,7 = 69,15$	29

## module VI: nombres entiers

niv.1	Additions et soustractions des entiers - 2 termes.	$5 - 7 = -2$	30
niv.2	Additions et soustractions (2 termes - avec successions de signes).	$(+45) - (-7) = 52$	31
niv.3	Additions et soustractions plus de 2 termes.	$-16 - (-17) - (-14) - 3 = 12$	33
